DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 23, 24, 30, 32, and 50 are rejected under 35 U.S.C. 102(b) as being anticipated by Girard et al, US Patent 4,927,196. A rotary unit for use with a locking system, comprising a base plate 3 having a slot 5; a rotary member 1 rotatably mounted with the base plate about a first axis of rotation, the rotary member including a plurality of fingers (13, 14) extending radially outwardly from a central portion thereof and an engagement portion (18, 19) fixed to the central portion, the engagement portion having a plurality of teeth; and a pawl member 20 pivotally with the base plate about a second axis of rotation (at 28) and adapted for coupling with a connecting member 25, the pawl member including an engagement projection that selectively engages the teeth of the engagement portion of the rotary member to prevent rotation of the rotary member in a first rotative direction but permit free rotation of the rotary member in a second rotative direction that is

opposite the first rotative direction. A biasing member 22 that biases the pawl member to engage the engagement portion of the rotary member. The engagement portion is a circular gear with at least 12 teeth as claimed.

Allowable Subject Matter

3. Claims 1-9, 12, 13, 15-16, 18-22, 33, 35-37, and 46-49 are allowed.
4. Claims 25-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to the claims of record have been considered but are moot in view of the new ground(s) of rejection.
